

**max**  
FITNESS CORP

Since 1989

PROVINCE  
SPORTS

MANUFACTURER

GYM | MMA | BOXING | GEARS

## Company Profile

We are in the business of Manufacturing since 1989. Now we own two companies. One of **PROVINCE SPORTS**, here we deals in MOTOR BIKE garments and the 2<sup>nd</sup> one is **MAX'Z FITNESS** where we do **Fitness/Gym Gloves** , Accessories and **Boxing Gear**.

### MANAGEMENT

We are a professional Company headed by **Mr. Babar Iqbal** who held high posts in the sports industry in Pakistan. Have a highly motivated team of workers and staff which has enabled the company to succeed in all of its operations while using their innovative ideas and marketing skills.

### INFRASTRUCTURE

We have a team of highly skilled & qualified professionals, who are dedicated to produce quality products. In house production and quality control are the keys to success. Our production facility is equipped with latest machinery. We have a large assembly line production and have total compliance of international standards as well. We are well experienced, fully conversant with the quality standards and timely deliveries.

### QUALITY

We give highest importance to the quality. A number of Quality checks are applied to ensure that only the best products should leave the production unit. We keep a constant eye on the latest fashion trends and keep updating our collection accordingly.

We would greatly appreciate receiving any queries you may have to learn more about our products and services.

**TEAM MAX Z FITNESS CORP.**

## Weight Lifting Belts

### Weight Lifting Belt with Special Back Support Feature

Front MX-1216

Weightlifting belts are meant to brace the core through intra-abdominal pressure. This anatomically shaped weight lifting belt with special back support is a combination of a classic weightlifting belt and a special feature that supports the back while maintaining muscle warmth.

EVA foam is closed cell foam made from Ethylene Vinyl Acetate and blended copolymers. It has a high level of chemical cross linking. The result is semi-rigid product with a fine uniform cell structure that is suitable for use in a wide variety of situations and applications. Benefits of EVA Foam include;

- Impact and vibration absorption
- Weather and chemical resistance including splash resistance to oils and fuels
- Acoustic and thermal insulation properties
- Buoyancy with low water absorption
- Suitability for thermo-forming and thermo-moulding
